(Attn : Mr. Abdullah Ismail)

Dear Sir,

RESULT FOR LC<sub>50</sub> (*Artemia salina*) LETHALITY STUDY FOR EM-1 IN WATER

The above matter is referred:-

2. Below are the results for the different concentration of EM-1 in water.

Item	Concentration, ml/ml	Lethality, %
EM-1 : Water	1:2000	0
EM-1 : Water	1:1000	0
EM-1 : Water	1:500	0
Total		0

3. Therefore, from the total number of the lethality shown that EM-1 with high concentration was not toxic in water.

Enclose I attached the methodology and a few figures of the experimental works for your reference.

Your sincerely,

  
AIDEE KAMAL BIN KHAMIS  
Research Officer  
Chemical Engineering Pilot Plant (CEPP)
